PRELIMINARY REMARKS

Claims 1-34 are presented in the divisional application filed herewith, which correspond to claims 54-59, 65-70, 79-87, 94, 99-105, 107, 129-131 and 134 of the parent case, U.S. application serial no. 08/478,801.

All of these claims were found allowable in the Official Action dated June 17, 1999, Paper No. 12, the examiner indicating that these claims were rejected solely based on double patenting over U.S. Patent No. 5,599,638.

Without any admission that the claims are in fact so obvious, Applicants file herewith a Terminal Disclaimer to obviate the rejection. This renders all claims allowable and a Notice of Allowance is hence respectfully requested.
